

ATakumul alDhahabiya Oil & Gas LLC

INTRODUCTION

Built on a strong foundation made up of both expertise and experience **Atakamul Aldhahabiya Oil and Gas LLC ("AAOG")** prides itself on its ability of providing seamless services to meet industry and market needs. From humble beginnings in Muscat, Oman, **AAOG** has been able to build an identity as a trusted, reliable service provider within its areas of expertise. Through the targeted use of performance and efficiency maximization of its assets the company has adopted a lean business model which delivers cost effective, high quality business and industry solutions to clients.

- **Mission:**

To combine aggressive lean principles with quality products and services at competitive prices to provide the best value for clients.

FROM THE DESK OF OUR FOUNDER AND CHAIRMAN

Salim Abdullah Salim Al Shanfari

At **AAOG**, we promote and nurture the pioneering spirit of man in our continual quest for growth. We believe excellence is a continuous process of striving to do better. To that end, we mobilize all our resources to deliver high-quality products and services, through continuous Innovation, to make our customers vision a reality.

We are committed to maintain the highest levels of professionalism, integrity, honesty and fairness in our relationships with our suppliers, subcontractors, professional associates and customers. We strive to contribute to the sustainability of our global environment through an emphasis on sound profitability and corporate social responsibility in delivering high quality products and services.

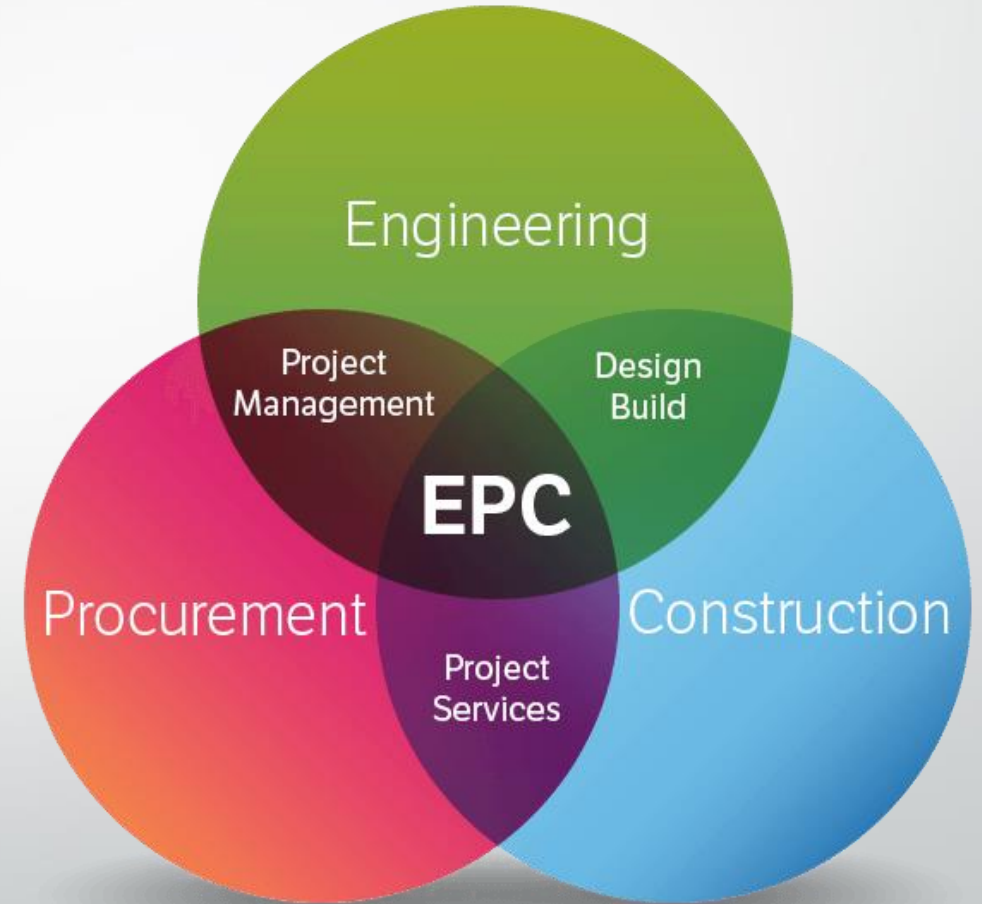

The key to our business success and the enduring client relationships that we enjoy is all about caring for our employees and putting them first. We train our employees, and we develop them through a continuous learning process, all with the ultimate goal of doing a better job for our customers.

OUR PORTFOLIO

EPC

- Our EPC Solutions
- Engineering, Design, Manufacturing of Process Equipment , Central Production Facility.
- Selection of related OEM offerings & Sourcing & Procurement
- Logistics & Forwarding to site
- Construction Supervision
- Project Management & Consulting
- On-site commissioning
- Process & Equipment Troubleshooting
- Predictive & preventative maintenance, & operations training
- EPC of cross country pipelines

EPC – PROCESS EQUIPMENT

Early Production Facilities & Process Equipment

What We Offer

- From our experience building stand-alone processing equipment, we also cater to the needs of our clients needing a more complete solution as follows:
- Process Optimization & complete oil processing facility design, engineering, manufacturing/sourcing, delivery, construction and commissioning.
- Interconnection (piping, electrical, communications)
- Control room(s)
- Automation and controls (DCS/PLC/SCADA)
- Fire Protection Systems
- Fire Fighting System
- Electrical yard lighting and control systems
- Power generation
- Skid mounted/modular processing equipment
- Electrical Switching room
- Motor Control Centre

EPC - PIPELINES

- Our Pipeline EPC Solutions
- Capabilities include:
- **Pipeline construction:** The experience and safety record is unmatched. Highly skilled personnel and equipment can be mobilized to any location. Modern pipeline construction and maintenance techniques and high quality control systems are used.
- **Station and facility construction:** Services include construction, upgrades, expansion, and maintenance of stations and pipeline facilities. Projects range from gas plants and water treatment plants to pump stations, compressor stations, storage facilities, and truck or fuel loading facilities.
- **Pipeline maintenance and integrity services:** We have complete range of maintenance and integrity services. Regulatory compliance, hydro testing of existing lines, smart pig runs, and anomaly repairs are just a few of the services offered.
- **Project and construction management services:** Project success depends on meticulous attention to detail. Thorough pre-planning services ensure that each project starts correctly, and mutually beneficial schedules are developed and maintained with active customer collaboration.

PIPELINE / FLOW LINE CONSTRUCTION

- EPC of cross country Pipelines
- Flow line installation (CS/SS/RTP)
- Pigging Services
- Hot Tapping Services
- SS/DSS Piping Fabrication
- Skid fabrication
- Equipment Fabrication
- Valve maintenance
- Bolt Torquing
- Detailed Engineering Services
- Geotechnical Survey
- Supply of Bulk Materials

LOGISTICS

We are able to provide both regular and specialized logistics services within Oman that include trucking of machinery, heavy equipment and chemicals. We are able to deliver complex logistics solutions to remote areas across the Sultanate. All our drivers are experienced and certified to operate within the oilfield and our fleet complies with PDO requirements.

CONSTRUCTION/ DEMOLITION WORKS

The operational excellence of Atakamul and Demolition is guided by the philosophy that safety is the foundation that great companies are built on. This is embodied in our Zero Incident goal for all of our team members, our projects, our company, and our industry. Continually improving our safety performance is an ongoing process that we have our company, staff and leadership invested greatly in.

AAOG is a specialist provider of decommissioning and demolition services to the oil, gas and petrochemical industry (refineries, terminals and storage depots). From initial surveys, hazard abatement, de-planting and demolition to waste characterisation, separation and disposal, we have an impeccable safety record in this most demanding and challenging of environments.

As experienced decommissioning & demolition practitioners we have developed industry best practices and understand the practical, safety challenges posed by petrochemical environments. AAOG offers a proven team with the technical and managerial capabilities aligned to the varying scopes of work that we may encounter through the course of a plant decommissioning or demolition program. Our specialist skills and advanced equipment ensures safe decommissioning and demolition incorporating best practice and value engineering techniques with minimal impact.

MANPOWER SUPPLY

Our in house expertise in manpower management combined with an in depth knowledge of industry needs has allowed us to develop the capability to supply specialized manpower for a range of oilfield services. We are able to provide both local and expat workforce who are well versed with the requirements of the Omani oil and gas sector. We ensure compliance to HSE standards and training requirements and can fulfill both short term and long term deployments.

ELECTRICAL WORKS

- **DESIGN AND CONSTRUCTION OF 33 KV PRIMARY STATIONS, 11 KV DISTRIBUTION SUBSTATIONS.**
- **CONSTRUCTION OF 33 KV , 11 KV & 0.415 KV OVERHEAD LINES AND UNDERGROUND CABLES THROUGH TRENCHES, MANHOLES & DUCTS.**
- **MV, LV CABLE TERMINATION WORKS AND JOINTS UP TO 33 KV.**
- **UPGRADATION OF IN-SERVICE TRANSFORMERS, SWITCHGEAR AND ALL RELATED ACCESSORIES.**
- **INSTALLATION OF STREET LIGHT POLES AND SERVICE CONNECTIONS WITH DIFFERENT SPECIFICATIONS.**
- **TESTING & COMMISSIONING OF 33 KV, 11 KV & 0.415 KV UNDERGROUND CABLES AND OVERHEAD LINES.**

DRILLING SERVICE

شركة التكامل الذهبية للنفط والغاز ش.م.م
a Takamul alDhahabiya Oil & Gas LLC

- Onshore / Offshore Drilling Service – Dry and Wet Lease
- High Pressure Pumping Services
- Stimulation Services
- Fracturing Services
- Open / cased hole logging
- MWD/ LWD
- Supply of Mud Motors, DrillBits
- Well head maintenance
- Supply of Well Head
- Well Testing Service
- Early Production Facility
- Supply of Rig Spare parts
- Mud Logging Services
- Seismic Survey – Onshore / Offshore

CHEMICALS

Our Portfolio of chemicals includes:

- 1. Water treatment Chemicals – Sodium Chloride, Potassium chloride, Soda Ash
- 2. Drilling Chemicals – Calcium Chloride , Calcium Carbonate, Barite, Bentonite
- 3. Cementing Chemicals – Fluid loss additive, Dispersant and friction reducer, expanding agent, flushing agent
- 4. Specialty Chemicals – Corrosion Inhibitor, Anti- flocculant, Hydrochloric Acid

TANK SERVICES

External Scaffolding

Patch Plate Inspection

Tank Cleaning Manually

GRE LINING

Bottom Plate Replacement

TANK MAINTENANCE

- ***Cleans interiors of boilers, storage tanks, industrial processing tanks, to remove emulsion and incrustations, using shovels, squeegees, brooms, scrapers, hoses, water, Pneumatic Pumps, and solvents: Drains tank, connects hose to water or steam lines, and sprays walls, roof, and bottom of tank to flush residue, such as oil, acid, grease, and sludge through tank openings.***
- ***Scrapes and scrubs walls, using detergents, solvents, scrapers, and brushes to remove incrustations, scale, or deposits of coke or catalyst.***
- ***Sweeps up debris and shovels sludge into buckets or wheelbarrows or down chutes.***
- ***Removes chemical residues and other liquids from tank bottoms with squeegees or pump and suction hoses.***
- ***Gas Testing the Tank***
Confined Space Entry by the Breathing Apparatus (Live Line)

TANK JACK UP

- **AAOG is an expert of Tank Jack up by means of Construction & Maintenance, We will apply the latest Technology of using Automatic Welding and cutting, Hydraulic Jacking and etc. on the Tank. We implement the Tank Maintenance & Construction by using the Standard Code of API 653 & API 650.**
- **We have been executing of the projects in different organizations and our services extend to the total Tank Maintenance trajectories.**

CIVIL/ PRECASTING SERVICES

- AAOG Co. is able to do the civil activities by provision of the Ready-mix Plant and expediting the Job based on the below Mentioned Activities:
 - Tank Foundation Construction.
 - Flow line Sleeper Pre-Casting Work
 - Fencing Work
 - Provision of the Hard-Stand
 - Explosion Proof Control Rooms & etc.
